Conference Agenda

42nd CCSC Eastern Regional Conference 2026

Date: Friday, 09/Oct/2026

12:00pm - 2:00pm

Registration: Check in
Location: **MLK Atrium**

2:00pm - 3:00pm

Welcome Remarks and Opening Keynote
Location: **MLK Auditorium**
Teaching in the Age of AI: Preparing Students for the World They Will Actually Enter Keynote description Artificial intelligence is already changing how professionals research, analyze information, solve problems, communicate, and make decisions. Yet higher education is still wrestling with a fundamental question: should students be allowed to use AI? This keynote argues that we are asking the wrong question. AI will be part of the professional environment our students enter, and universities have a responsibility to teach students how to use it effectively, critically, ethically, and responsibly. Drawing on more than two decades of university teaching, extensive industry IT leadership, and recent work integrating generative AI throughout the curriculum, Dr. Lindoo will discuss a practical approach to moving from AI avoidance to AI literacy. Rather than treating AI as a shortcut or replacement for learning, faculty can design assignments in which AI becomes an object of inquiry, an analytical assistant, and even an imperfect collaborator whose work students must question and verify. Dr. Lindoo will share examples from a recently redesigned Regis University course that incorporates AI assignments every week, as well as lessons emerging from his development of a new textbook on business intelligence and AI. This keynote challenges faculty across disciplines to reconsider what students need to know in an environment where producing an answer is increasingly easy. The educational value shifts toward asking better questions, evaluating evidence, recognizing errors and bias, improving AI-generated work, and exercising human judgment. The objective is not to teach students to let AI think for them. It is to teach them how to think better because AI is available to them.

3:00pm - 3:15pm

Snack/Coffee
Location: **MLK Auditorium**
Vendors Room

3:15pm - 4:30pm

CollegeBoard: Scoring Like a Reader: Bringing AP CSA Exam Insights Into Your Classroom
Location: **MLK 1342**

3:15pm - 4:30pm

Track Stu1: Student Papers
Location: **MLK 2518**

LIME-XDF: An Explainability Optimization Framework for Trustworthy Deepfake Detection

Sanda L Delancy, Lily Liang
University of the District of Columbia, United States of America; sandra.delancy@udc.edu

---

Semantic Knowledge Graphs for Accessible Math Speech

Ricardo Urbaez, Navya Martin Kollapally
Kean University, United States of America; Urbaezr@Kean.edu

3:15pm - 4:30pm

Track Stu2: Student Papers
Location: **MLK 2503**

Toward Memory Trace Reconstruction: Decoding Imagined Visual Content from EEG Using a Perception-Guided Diffusion Framework

Siva Abishikth Mylavarapu, Thammarat Shera
Bay Atlantic University, United States of America; smylavarapu@stu.bau.edu

---

Effective Cybersecurity Measures to Minimize the Impact of SQL Injection Vulnerability on Web Applications

Octavia Olivia Sumailah
Marymount University, Sierra Leone; osumaila@marymount.edu

Unified Zero-Trust Space Cybersecurity System: An AI-Driven Cyber Defense Framework for Secure Space-Ground Communications

Octavia Olivia Sumailah
Marymount University, Sierra Leone; osumaila@marymount.edu

3:15pm - 4:30pm

Track Stu3: Student Papers
Location: **MLK 2508**

Evaluating Machine Learning Models for Social Media Bot Detection: A Comparative Study Using the VKontakte Users vs. Bots Classification Dataset

Armin Khoshkar
Marymount University, College of Business, Innovation, Leadership, and Technology, United States of America; A0K20705@Marymount.Edu

---

SDASA: Persistent Distributed AI with Heterogeneous Edge Inference and Graceful Degradation

James Harada[1,4], Charles Harada[2,3,4]
1: Kutztown University of Pennsylvania, United States of America; 2: Emmaus High School, East Penn School District, Emmaus Pennsylvania, United States of America; 3: Lehigh Carbon Community College, Schnecksville Pennsylvania, United States of America; 4: Solace AI LLC Student Research Division, Emmaus Pennsylvania, United States of America; jgharada@outlook.com

---

Evaluating the robotic control reasoning potential of locally-hosted LLMs

Avery Leber
West Chester University of Pennsylvania, United States of America; al1034274@wcupa.edu

3:15pm - 4:30pm

Vendors: Vendors
Location: **MLK Atrium**
Rephactor
CollegeBoard
TEC-Bridge AI, LLC

4:30pm - 5:30pm

Posters
Location: **MLK Atrium**

Aquarium Motion Based Number Generation

Justin Nicholas Frock
Carroll Community College, United States of America; jfrock2@carrollcc.edu

---

From Custom Tags to Dynamic References: Teaching Custom HTML Elements Through Standards Citation

Sen Zhang
State University of New York College at Oneonta, United States of America; Sen.Zhang@oneonta.edu

---

Theoretical vs. Experimental Efficiency of Deque-Based Buffers for Real-Time Acoustic Drone Detection

Abbagail Rice[1], Liz Aristizabal[1], Richard Baldwin[1], Nooh Muhammad[1], Liangliang Xiao[2]
1: Spark Labs Frostburg State University; 2: Computer Science and Information Technologies, Frostburg State University; abbagail.g.rice@gmail.com

---

Undergraduate Data Visualization: A 9-Week Summer Model

Ching-yu Huang, Paolien Wang

Kean University, United States of America; chuang@kean.edu

AI-Powered SaaS Implementation to Facilitate Creative Problem Solving (CPS) Process

Alex Beltran, Rasik Shakyna, Spencer O'Neil, Sen Zheng, Geoffrey O'Shea
SUNY Oneonta, United States of America; oneilsp10@gmail.com

Deep Reinforcement Learning for Minimum Zero-Forcing Sets

Steve Halley, Maurício Gruppi
Villanova University, United States of America; stevehalley9@gmail.com

---

Using Low-Cost Augmented Reality to Teach Linked List Pointer Operations

Ben Khant, SingChun Lee
Bucknell University, United States of America; ak058@bucknell.edu
